

Mobility as a Branch

TRANSFORM YOUR BRANCH TO A VIRTUAL BRANCH

MobiBranch acts as a natural extension of your branch wherever your employees go to service your members.

Get into the community. Get out of the branch.

Your service area will grow exponentially and your members will thank you for it.

How Mobile is Your Branch?

Unbranch and Mobilize.

Teller Dashboard

Your members are busy. They're mobile. It's difficult to get to the branch during branch hours.

The teller dashboard allows you to service members in any location; coffee shop, warehouse, school, hospital, or gym.

Provide exceptional member service anywhere, anytime.

Account Onboarding

Make your branch mobile; at the mall, the car dealership, over lunch. Our tablet app gives you that flexibility.

Complete forms, scan licenses, pull credit scores and digitally sign documentation.

We've uncomplicated the account opening process; form flow is laid out for each account to reduce employee errors, and streamline branch processes.

Employee Communications

If the data breaches of the past have taught us anything, it is to be more vigilant about protecting sensitive information and ensuring your employees have the tools to do so. Public chat apps and texting are not a secure form of communication.

Our secure chat module enables employees to communicate securely and privately over an encrypted channel, keeping data on your own in-house servers. Protect your data and get ahead of future regulatory compliance issues.
