Mobilearth Implementation Process

1

## Kickoff Meeting (lets chat about what you want)

2

Documentation (to make sure we get it right)

3

Development (customized just for you)

4

UI/UX (we'll help you brand our software)

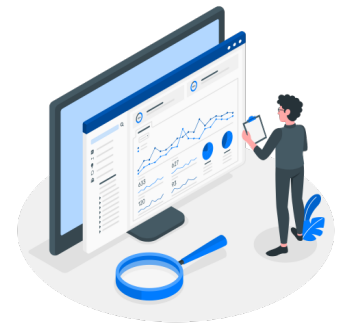

5

Installation (loading our software onto your servers)

6

Configuration (making it perfect for you)

7

Training (we'll show you how to use our software)

8

Pilot (roll out to friends and family)

9

Go Live (full rollout)
